XFX GeForce™ 9500 GT

PCI-Express 2.0 Cardbus Connector

### Dual Dual-Link Technology

Supporting digital output up to 2560x1600 on two LCD Monitors at the same time.

### HDTV Ready and HD Gaming

High-definition video playback and crisp picture quality. Provides world-class TV-out functionality up to 1080i resolution.

### SLI Ready

Delivers up to 2x the performance of a single GPU configuration for unparalleled gaming experiences by allowing two graphics cards to run in parallel. The must-have feature for performance PCI-Express graphics, SLI dramatically scales performance on over 60 top PC games.

### Dual DVI

Able to drive the industry's largest and highest resolution flat-panel displays.

### DVI to Analog Adapter

Includes DVI to Analog Adapter to convert your old VGA output to DVI connector.

### HDMI

HDMI is a new standard that combines digital video and audio in a single consumer-friendly connector. HDMI delivers a clear clean image at any window size, including full-screen high-definition resolutions up to 1080p.
