Output
Dual DVI

POWER TOOLS. IN DEMAND ANY TIME OF YEAR.

When it comes to video games, winning comes down to power, speed and brains. Get the first two with the industry's ultimate card, the new XFX ATI Radeon™ HD 4870 X2 graphics card. Play with 2.4 teraFLOPS of graphics horsepower, 1600 stream processors and 2 GB of GDDR5 memory, which makes the XFX Radeon HD 4870 X2 impossibly fast and exceptionally powerful.

- TeraScale Graphics Engine
- Unified Superscalar Shader Architecture
- 2.0 GB DDR5 Memory
- Accelerated Video Transcoding (AVT)
- Dynamic Power Management
- 1600 (800x2) Stream Processing Units
- ATI PowerPlay™ Technology
- ATI CrossFireX
- DirectX 10.1 Support
- HDCP Capable
- HDMI Ready

TeraScale Graphics Engine

The new TeraScale graphics engine features up to 1.2 teraFLOPS, nearly one billion transistors and up to 800 stream processors so you can enjoy the high resolutions and fast frame rates previously only available with dual-card systems.

ATI CrossFireX™

The ultimate multi-graphics card performance gaming platform. Enabling game-dominating power, ATI CrossFireX technology enables two or more discrete graphics cards to work together to improve system performance. For The Ultimate Visual Experience™, be sure to select ATI CrossFireX ready motherboards for AMD and Intel® processors and multiple ATI Radeon™ HD graphics cards. ATI CrossFireX technology allows you to expand your system's graphics capabilities. It allows you the ability to scale your system's graphics horsepower as you need it, supporting up to four ATI Radeon™ HD graphics cards, making this the most scalable gaming platform ever.

ATI Stream Technology

A set of advanced hardware and software technologies that enable ATI graphics cards, working with the system's CPU to accelerate many applications beyond just graphics. This enables better balanced platforms capable of running demanding computing tasks faster than ever.

HDMI HDMI

HDMI is a new standard that combines digital video and audio in a single consumer-friendly connector. HDMI delivers a clear clean image at any window size, including full-screen high-definition resolutions up to 1080p. The combination of high-definition video and high-definition audio from HDMI delivers unprecedented picture clarity, smooth video, accurate color, and precise image scaling for all video content to turn a PC into a high-end home theater. (includes HDMI adapter)

Dual Dual-Link Technology

Supporting digital output up to 2560x1600 on two LCD Monitors at the same time.

HDTV Ready and HD Gaming

Supporting digital output up to 2560x1600 on two LCD Monitors at the same time.

Double Lifetime Protection

Our exclusive Double Lifetime Protection guarantees the quality and dependability of our card for both you and the second owner.
